

Audi

► The 2008 Audi A4 Sedan & Avant

Power. Performance. Style.

The A4 has it all. And then some.

A4 sedan shown.

There's but one word for transcendent
beauty in this category: Avant.

All the amenities. With no wasted space.
The perfect expression of confident luxury.

A4 shown.

**From a driver's perspective, the A4 is more than
the sum of its considerable parts.**

It's one thing to design the trim accents to suggest a wraparound effect. Something else to actually build it so seamlessly. At Audi, it's this kind of attention to detail that sets our cars apart. From its hand-stitched, leather-covered steering wheel to its raised center console to the touch and look of every dial, every switch, the Audi A4 is an ergonomic masterpiece. One designed to satisfy not just on a test drive, but for years and years.

We hand stitch the leather on the steering wheel. There are some tasks better left to human touch.

The information you need available at a glance.

After all, the driving experience remains paramount.

Beyond dual-zone climate control, the 2008 A4 features heated front seats standard on 3.2 models. They're also available as part of our Cold weather package or as a stand-alone option on 2.0 T models. The popular Convenience package features HomeLink, a light/rain sensor, auto-dimming exterior mirrors as well as an auto-dimming interior mirror with a built-in compass.

A vivid, line-of-sight Driver Information Display typifies our focused approach — all the data you need, without the distractions. Our goal: Inform, but never interfere.

And then we encourage you to further personalize your A4 with select options. In fact, we invite you to look closely at the specifications section of the brochure. From Bose® premium sound to DVD-based Audi Navigation plus. From Bluetooth phone preparation and iPod adaptability to SD® card slots for MP3 sound and more, the 2008 A4 bears witness to a devotion to marrying form and function.

The A4 is all about taking what's important in your life and bringing it to the road.

The appeal of the S line interior package is instantaneous as well as enduring.

Whether you opt for a hand-stitched, three-spoke steering wheel with paddle shifters or a six-speed manual is up to you. No matter which setup you choose, attention to detail is a given. For example, perforating the leather delivers added grip.

We invite you to let quattro GmbH work its magic inside and out. While every 2008 A4 sedan gets the S line exterior treatment from our performance and customization arm, a select few get the treatment inside. Not to mention a finely tuned sport suspension.

When you step inside a car with the S line package, you're entering a domain where style and substance work together seamlessly.

For some, there is no substitute for a torque-rich V8. With all the trimmings.

Aluminum pedals with raised-rubber inserts instantly transmit the intent of the RS 4. With a 420 hp V8, Dynamic Ride Control, sport-biased quattro and incomparable style, an automotive full house. New for the RS 4 in 2008: An optional Titanium package as well as a systematic approach to interior upgrades we call Audi exclusive. Your dealer has all the details.

From special wheels to distinctive brakes, all of our RS and S cars are more than simply purpose-driven performance machines. We pay close attention to every detail. From the distinctive Piano Black trim of the RS 4 to S4 trim options such as Carbon Fiber and Gray Birch.

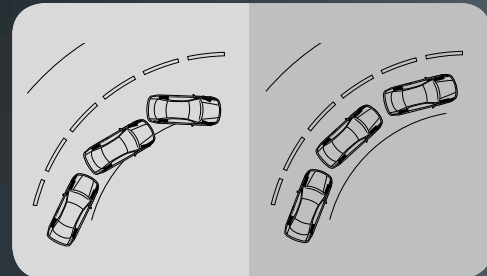

Every S4 benefits from our vast experience in motorsports. Ironically, it's that experience that makes these cars ideally suited for your everyday commute or a cross-country jaunt.

Rapid response is just one of its virtues. To experience more, take a drive.

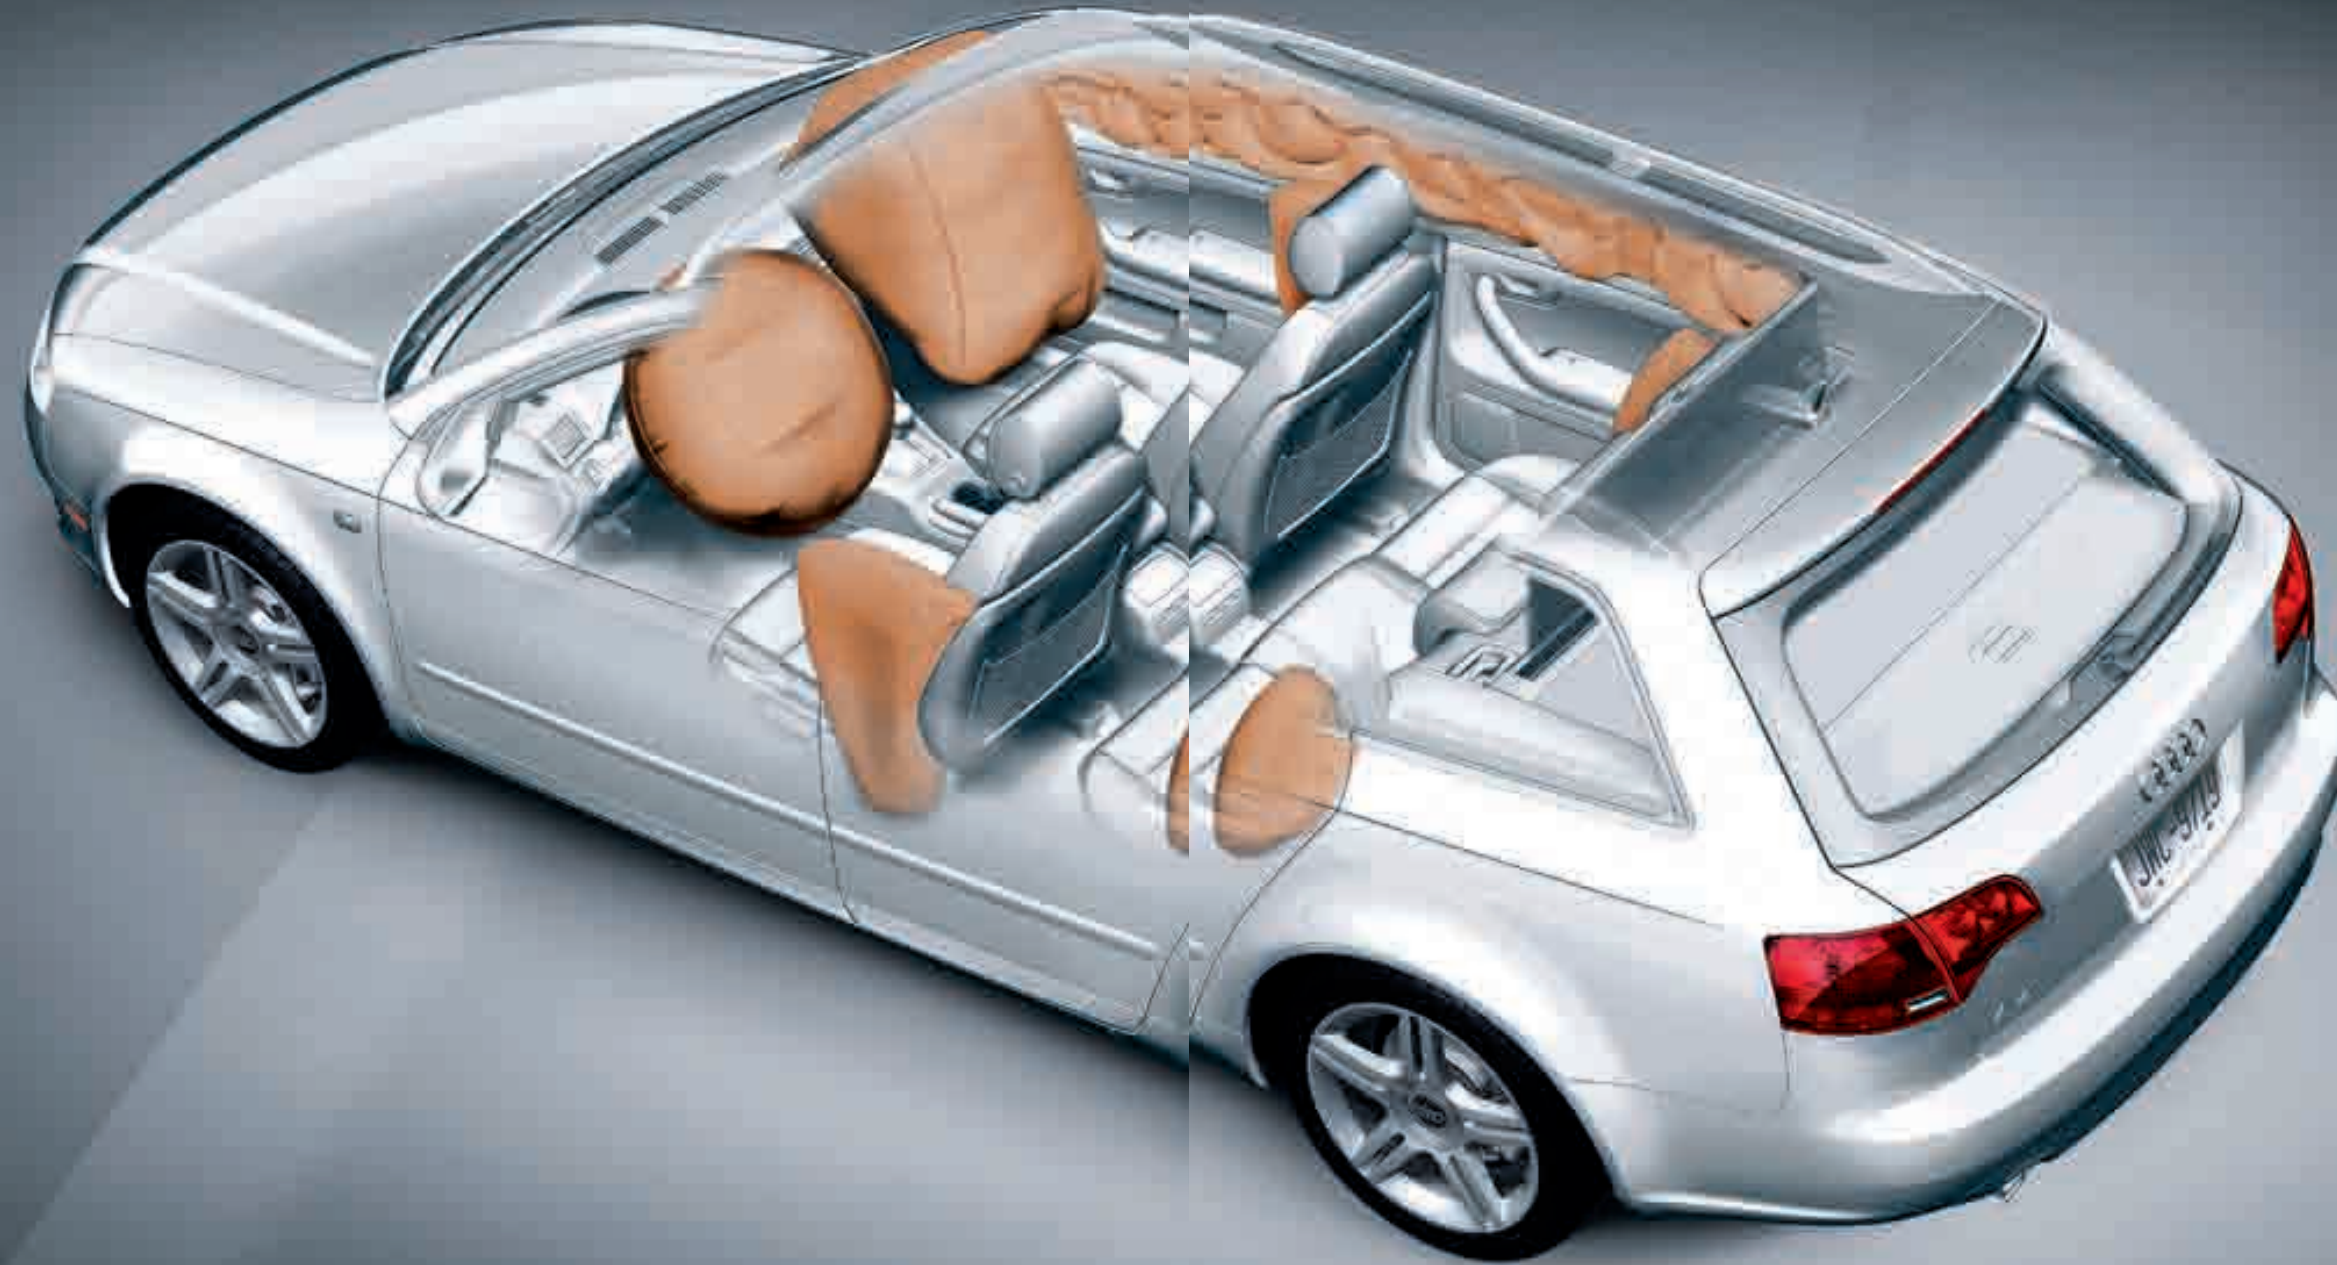

For more information on all these performance cars, please ask your dealer for the dedicated brochure that details all that our S and RS cars have to offer.

The Insurance Institute for Highway Safety (IIHS) named the A4 a "Top Safety Pick" based on its performance in front, rear and side crash tests. For more information on these tests, go to www.iihs.org*

The reason why an Electronic Stability Program (ESP) is standard is to help you to maintain the direction you intend. The illustration at the left demonstrates what could have happened if ESP had not intervened.

Not just safe for its size, safe for any size.

As you can plainly see from the illustration to the left, the A4 has airbags aplenty. Including comprehensive Sideguard® protection as well as dual-stage, dual-threshold front airbags! But to our way of thinking, an accident avoided is always the preferred scenario. Both of our drivetrains, quattro and FrontTrak, stand at the forefront of control under a variety of conditions. The way we see it, nothing breeds confidence like control.

The cars' mechanical brilliance, solid construction, pre-programmed deformation areas and array of standard safety features are complemented by a host of electronic assists. Leading the way: ESP 8.0. This Electronic Stability Program networks with EDL, EBD, ABS and Brake Assist to help ensure that your A4 responds to your inputs in extreme situations. We even go so far as to periodically dry the brake's discs so they'll be ready in wet weather. Standard on every A4 for 2008: Tire-pressure monitoring system. At Audi, safety isn't one thing. An airbag. Or wood trim that won't splinter in an accident. Or cutting off power in the event of an accident. Safety is everything.

For families who want nothing but the very best, nothing less than an Audi A4 will do.

*"Top Safety Pick" based on 31 mph side-impact crash test, 40 mph frontal offset crash test and 20 mph rear-impact crash test performed by the Insurance Institute for Highway Safety and the availability of ESP.

*Airbags are supplemental restraints only and will not deploy under all accident circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

We encourage you to accessorize your A4.

Because we understand that you lead a full life.

Whether it's carrying luggage, a kayak, skis or a bike, it all starts with a base rack. What you add on top of that depends on what your weekend has in store. So whether you're in the mountains or at the coast, the A4 has you covered.

From organizing your gear for the trunk to all-weather mats, genuine Audi accessories are the way to go. To see what's available, see your local dealer or visit audiusa.com.

Protect your Audi from the elements with a lightweight, easy-to-use cover. Complete with a plastic window so the rear license plate remains visible. Storage bag included.

A heavy-duty, moisture-resistant rubber mat covered by a nylon carpet provides excellent trunk protection. Textured material reduces load-shifting, while the raised lip contains spills.

2008 Audi A4 Specifications

We invite you to invest some quality time with this section of our brochure. After all, with numerous options and packages to choose from, the ability to tailor your car precisely rests in your hands. Our goal is to make buying your A4 nearly as rewarding as driving one.

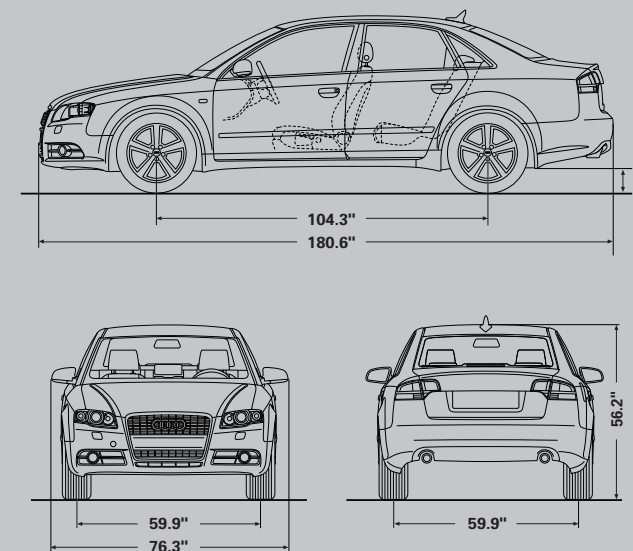

Power and Performance

- A4 2.0 T**
- ▶ 200 hp – Turbocharged DOHC 2.0 liter in-line four-cylinder with FSI® Direct Injection, variable valve timing and intake manifold
 - ▶ Displacement – 121.06 cu. in.
 - ▶ Bore: 3.25 in. Stroke: 3.65 in. Compression ratio: 10.5:1
 - ▶ Horsepower: 200 hp @ 5100-6000 rpm
 - ▶ Torque: 207 lb-ft @ 1800-5000 rpm
 - ▶ 0-60 mph in seconds – Tiptronic: 7.5; manual, quattro: 7.3; multitronic: 7.3; manual, FrontTrak: 7.1
 - ▶ Top track speed¹: 130 mph
 - ▶ Fuel economy estimates, city/highway² – Tiptronic: 19/27 mpg; manual, quattro: 20/28 mpg; multitronic: 21/30 mpg; manual, FrontTrak: 20/31 mpg

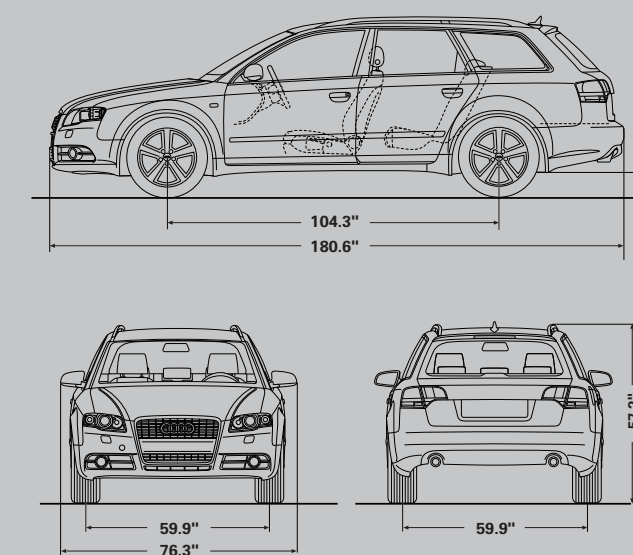

- A4 3.2**
- ▶ 255 hp – DOHC all-aluminum 90-degree 3.2 liter V6 with FSI Direct Injection, variable intake valve timing and intake manifold
 - ▶ Displacement – 190.57 cu. in.
 - ▶ Bore: 3.33 in. Stroke: 3.65 in. Compression ratio: 12.5:1
 - ▶ Horsepower: 255 hp @ 6500 rpm
 - ▶ Torque: 243 lb-ft @ 3250 rpm
 - ▶ 0-60 mph in seconds – Tiptronic: 6.7; manual: 6.5; multitronic: 6.6
 - ▶ Top track speed¹: 130 mph
 - ▶ Fuel economy estimates, city/highway²

*Summer performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tires specified for your car or its equivalent. These summer performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For more information on all of these topics, please consult the owner's manual, your local dealer or call 1-800-FOR-AUDI.

*Audi Navigation plus depends upon signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest or other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgement in determining whether or not to follow a suggested Audi Navigation plus route. Periodically the mapping is updated and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.

**Airbags are supplemental restraints only and will not deploy under all accident circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age.

A. Standard slide-and-tilt sunroof.
B. Optional iPod adapter.
C. Optional bi-xenon adaptive headlights.

D. Standard split-fold rear seats.
E. Optional heated seats.
F. Retractable headlight washers, part of optional Cold weather package.
