MINI COOPER D CLUBMAN

DESIGN

The result of some typical MINI design vision, MINI Cooper D Clubman is far from anonymous. It shapes up to the challenge with a unique silhouette: a clever evolution that keeps it top of the form. The passenger-easing Clubdoor adds to the intrigue, providing a two-lane expressway to the back seat, and its distinctive rear Splitdoor means it carries all the gear you can throw at it.

SAFETY

Let the six airbags set your mind at rest, along with seatbelt pre-tensioners, a strategically reinforced body, Anti-lock Brakes (ABS with CBC, EBD and Brake Assist) and Automatic Stability Control + Traction (ASC+T). MINI Cooper D Clubman also has Dynamic Stability Control (DSC) as standard, making it one of the safest rides around.

ENGINE

With an engine like this under the bonnet, you don't need to compromise – it's as powerful as it is economical. You can enjoy journeys long and short knowing you get great mileage, and you can indulge your need for acceleration, knowing that its turbocharged 1.6 litre engine will get from 0-62 mph in just 10.4 seconds

Average consumption: 68.9 mpg combined
CO₂ emissions 109 (g/km).

DRIVING EXPERIENCE

Sit down, buckle up and prepare for a drive so potent and punchy, you'll hardly believe you're running on diesel. Crisp transmission and lively acceleration get you going; stable suspension, low ground clearance and go-kart handling keep your wheels on the road. The MINI Cooper D Clubman delivers all the thrills you expect from a MINI – and with each tank of fuel taking you further, you can enjoy it for longer too.
